TELID® 200 Sensor Bundle stationary

TELID® bundles come in cardboard package and contain following items:

Sensor transponders:
2 x **TELID®** 211.03 temperature sensor transponder
2 x **TELID®** 231.02 temperature & humidity sensor transponder
2 x **TELID®** 241.01 temperature & pressure sensor transponder
2 x **TELID®** 282i inclination sensor transponder

RFID interface:
1 x **iID®** controller CCO with RS232TTL serial interface
1 x M30 head with RS232TTL serial interface
1 x QuickStartGuide **iID®** sensor data capture HF

Software:
1 x **iID®** sensor data capture (pre-installed) and Documentation (as PDF)

Description

- Complete solution including
  - Diverse passive HF sensor transponders
  - **iID®** controller CCU with RS232TTL serial interface
  - pre-installed data capture software for automatic, stand-alone long-time sensor data logging to USB data storage
  - M30 HF reader with RS232 TTL serial interface
- RFID sensor transponders come with industrial packaging for harsh environment conditions and encapsulated for using in fluid (depending on sensor type)
